_	
В	ox No. I Basis of this opinion
١.	With regard to the language, this opinion has been established on the basis of :
	the international application in the language in which it was filed
	a translation of the international application into, which is the language of a
	translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b))
2.	With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
	a. type of material

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2006/035467

Box No. V Reasoned statement under Rule 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Novelty (N)	Claims 1-20	YE
	Claims None	NO NO
Inventive step (IS)	Claims I-20	YE
	Claims None	. NO
Industrial applicability (IA)	Claims 1-20	YE
	Claims None	NO

2. Citations and explanations :

Reference is made to the following document :

- D1: US 2004/0119760 A1 (Grossman et al.) 24 June 2004
- O1 is considered to represent the most relevant prior art to the subject matter of independent claims 1, 11 and 16, show methods, systems, and computer program products for displaying contact information corresponding to a contact management system with a user interface.

The subject matter of claims 1, 11 and 16 differ from D1 in that the present invention discloses a search and find user interface that is integrated with a data indexing engine to allow efficient and high speed data search and retrieval in data storage folders.

Therefore, the subject matter of above independent claims are novel under PCT Article 33(2).

The problem to be solved by the present invention may be regarded as existing search and find mechanism do not offer the opportunity for search of sub-storage areas making up larger storage areas.

And, the solution to this problem proposed in claims 1, 11 and 16 of the present application is considered as providing an improved search and find function that integrates a data indexing engine for efficient and high speed data search and retrieval.

D1 does not suggest above mentioned improved search and find function that integrates a data indexing engine.

Thus, claims 1, 11 and 16 involve inventive step and meet the requirement of PCT Article 33(3).

Further, claims 2-10, 12-15 and 17-20 are dependent on claims 1, 11, 16 which also meet the requirement of PCT Article 33(2)-33(3) with respect to novelty and inventive step.

And, all claims are considered to be industrially applicable.

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/US2006/035467

Box No. VIII Certain observations on the international application		
The following observations on the clarity of the claims, description, and drawings or on the question whether the claims are fully supported by the description, are made:		
Claims 17, 18, 19 are dependent on claim 11, and disclose "The computer readable medium of Claim 11, the method-", But, Claim 11 does not contain above " "The computer readable medium".

NOTES TO FORM PCT/ISA/220

These Notes are intended to give the basic instructions concerning the filting of amendments under Article 19. The Notes are based on the requirements of the Patent Cooperation Treaty, the Regulations and the Administrative Instructions under that Treaty. In case of discrepancy between these Notes and those requirements, the latter are applicable. For more detailed information, see also the PCT Applicant's Guide, a publication or WIPO.

In these Notes, "Article", "Rule" and "Section" refer to the provisions of the PCT, the PCT Regulations and the PCT Administrative Instructions, respectively.

INSTRUCTIONS CONCERNING AMENDMENTS UNDER ARTICLE 19

The applicant has, after having received the international search report and the written opinion of the International Searching Authority, one opportunity to amend the claims of the international application. It should however be emphasized that, since all parts of the international application (claims, description and drawings) may be amended during the international preliminary examination procedure, there is usually no need to file amendments of the claims under Article 19 except where, e.g. the applicant wants the latter to be published for the purposes of provisional protection or has another reason for amending the claims before international publication. Purthermore, it should be emphasized that provisional protection is a wallable in some States only (see PCT Applicant's Ouide, Volume I(A, Annexes, Bl and B2).

The attention of the applicant is drawn to the fact that ammendments to the claims under Article 19 are not allowed where the International Searching Authority has declared, under Article 17(2), that no international search report would be established (see PCT Applicant's Guide, Volume I/A, paragraph 296).

What parts of the international application may be amended?

Under Article 19, only the claims may be amended.

During the international phase, the claims may also be amended (or further amended) under Article 34 before the International Preliminary Examining Authority. The description and drawings may only be amended under Article 34 before the International Preliminary Examination Authority.

Upon entry into the national phase, all parts of the international application may be amended under Article 28 or, where applicable, Article 41.

When? Within 2 months from the date of transmittal of the international search report or 16 months from the priority date, whichever time limit expires later. It should be noted, however, that the amendments will be considered as having been received on time if they are received by the International Bureau after the expiration of the applicable time limit but before the completion of the technical preparations for international publication (Rule 46.1).

Where not to file the amendments?

The amendments may only be filed with the International Bureau and not with the receiving Office or the International Searching Authority (Rule 46.2).

Where a demand for international preliminary examination has been/is filed, see below.

How? Either by cancelling one or more entire claims, by adding one or more new claims or by amending the text of one or more of the claims as filed.

A replacement sheet must be submitted for each sheet of the claims which, on account of an amendment or amendments, differs from the sheet originally filed.

All the claims appearing on a replacement sheet must be numbered in Arabic numerals. Where a claim is cancelled, no renumbering of the other claims is required. In all cases where claims are numbered, they must be renumbered consecutively (Section 205(b)).

The amendments must be made in the language in which the international application is to be published.

What documents must/may accompany the amendments?

Letter (Section 205(b)):

The amendments must be submitted with a letter.

The letter will not be published with the intensational application and the amended claims. It should not be confused with the "Statement under Article 19(1)" (see below under "Statement under Article 19(1)"). The letter must be in English or French, at the choice of the applicant. However, if the language of the international application is English, the letter must be in English; if the language of the international application is French, the letter must be in French.

NOTES TO FORM PCT/ISA/220 (continued)

The letter must indicate the differences between the claims as filed and the claims as amended. It must, in particular, indicate, in connection with each claim appearing in the international application (it being understood that identical indications concerning several claims may be grouped), whether

- (i) the claim is unchanged;
- (ii) the elaim is eancelled;
- (iii) the claim is new; (iv) the claim replaces one or more claims as filed:
- (v) the elaim is the result of the division of a elaim as filed,

The following examples illustrate the manner in which amendments must be explained in the accompanying letter:

- [Where originally there were 48 claims and after amendment of some claims there are 51]: "Claims 1 to 29, 31, 22, 34, 35, 37 to 48 replaced by amended claims bearing the same manners; claims 30, 33 and 36 unchanged; new claims 49 to 51 added."
- [Where originally there were 15 claims and after amendment of all claims there are 11]: "Claims 1 to 15 replaced by amended claims 1 to 11."
- [Where originally there were 14 claims and the amendments consist in canceling some claims and in adding new claims]:
- "Claims 1 to 6 and 14 unchanged; claims 7 to 13 cancelled; new claims 15, 16 and 17 added." or "Claims 7 to 13 cancelled; new claims 15, 16 and 17 added; all other claims unchanged."
- 4. [Where various kinds of amendments are made]:

"Claims 1 - 10 unchanged; claims 11 to 13, 18 and 19 cancelled; claims 14, 15 and 16 replaced by amended claim 14; claim 17 subdivided into amended claims 15, 16 and 17; new elaims 20 and 21 added."

"Statement under Article 19(1)" (Rule 46.4)

The amendments may be accompanied by a statement explaining the amendments and indicating any impact that such amendments might have on the description and the drawings (which cannot be amended under Article 19(1)).

The statement will be published with the international application and the amended claims. It must be in the language in which the international application is to be published.

It must be brief, not exceed 500 words if in English or if translated into English.

It should not be confused with and does not replace the letter indicating the differences between the claims as filed and as amended. It must be filled on a separate sheet and must be indentified as such by a heading, preferably by using the words "Statement under Article [91]."

It may not contain any disparaging comments on the international search report or the relevance of citations contained in that report. Reference to citations, relevant to a given elaim, contained in the international search report may be made only in connection with an amendment of that claim.

Consequence If a demand for international preliminary examination has already been filed

If, at the time of filing any amendments and any accompanying statement, under Article 19, a demand for international preliminary examination has already been submitted, the applicant must preferably, at the time of filling the amendments (and any statement) with the International Bureau, also file with the International Preliminary Examining Authority a copy of such amendments (and of any statement) and, where required, a translation of such amendments for the procedure before that Authority (see Rule 53.3(a) and 62.2, first sentence). For further information, see the Notes to the demand form (PCT/IPEA/401).

If a demand for international preliminary examination is made, the written opinion of the International Searching Authority will, except in creatin cases where the International Preliminary Examining Authority did not act as International Searching Authority and where it has notified the International Bureau under Retid 66.1 bis(b), be considered to be a written opinion of the International Preliminary Examining Authority. If a demand is made, the applicant may submit to the International Preliminary Examining Authority a reply to the written opinion together, where appropriate, with amendments before the expiration of 3 months from the date of mailing of Form FCT/ISA/220 or before the expiration of 22 months from the prointy date, whichever expirate start (Rule 4) bis.1(c).

Consequence with regard to translation of the international application for entry into the national phase. The applicant's attention is drawn to the fact that, upon entry into the national phase, a translation of the claims as amended under Article 19 may have to be furnished to the designated elected Offices, instead of, or in addition to , the translation of the claims as filed.

For further details on the requirements of each designated/elected Office, see the PCT Applicant's Guide, Volume II.
